MARINE BLACKOUT BLINDS

PRIVACY SHADE SOLUTIONS FOR SHIPS, FERRIES AND CRUISELINERS

Do you need control over light levels on your ship, cruise liner or ferry? That's where Solarglide's marine blackout blinds come into their own.

With IMO FR approval, our range of blackout blinds will keep your crew and passengers safe and comfortable aboard your vessels. Proven to eliminate up to 99% of incoming light, you'll love the control our blinds give you.

With two fabric choices to choose from, you're only a decision or two away from the perfect blackout blinds for your vessel.

BLACK OUT BLINDS FABRIC OPTIONS

DART
BLACKOUT FABRIC

Perfect for areas where you need to block out the most light, our flame-retardant Dart fabric contains fibreglass and PVC.

It's antimicrobial, moisture resistant and easy to wipe clean and comes in a range of 13 colours including beige, navy and iron.

This fabric can withstand even the most moist areas such as cabins, shower areas and onboard washrooms.

The small print, if you love details:

- ✔ Dart fabric blocks out 100% of sunlight through the material
- ✔ Offers 100% UV protection
- ✔ 0% light and heat transmission
- ✔ 0% heat transmission
- ✔ Conforms to flame retardancy BS5867, Part 2: Type B 2008
- ✔ IMO Certified IMO 2010 FTP Code annex 1 Part 7

AVAILABLE IN:

CARNIVAL
BLACKOUT FABRIC

Softer and available in a wider range of 10 colours, our carnival blackout fabric is treated to prevent mould, bacteria and fungi.

This fabric is also ideal to help alleviate the symptoms of hay fever by preventing pollens entering the ship in port.

Carnival fabric:

- ✔ Blocks out 100% of sunlight through the material
- ✔ Offers 100% UV protection
- ✔ 0% light transmission
- ✔ Conforms to flame retardancy BS5867, Part 2: Type B 2008
- ✔ Eliminates 99% of coronavirus
- ✔ IMO Certified IMO 2010 FTP Code annex 1 Part 7

LET'S TALK DETAILS...

All of Solarglide's blackout screens are available in:

- ✓ Cassetted
- ✓ Non-cassetted
- ✓ Manual
- ✓ Motorised
- ✓ Battery-operated

Operating mechanisms include:

- ✓ Single pulley
- ✓ Centre pull handle
- ✓ Level pegs
- ✓ Sidewinder
- ✓ Cable guides or sidechannels

Solarglide's blackout fabrics eliminate up to 100% of incoming light and can reduce internal temperatures by up to 15°C in warm climates – perfect for keeping cabins cool. The fabrics are IMO FR approved and are available in 23 fabric colours.

Providing privacy and security, our blackout blinds are robust and durable, ensuring better sleeping conditions for crew and passengers alike. Powder coated profiles in white and grey come as standard, but other colours are available on request.

BLACKOUT BLIND OPTIONS

CASSETTED

The most popular option for screens, our retractable cassetted manual roller blind is enclosed in an aluminium case. This makes it robust and durable even onboard the busiest of vessels.

- ✓ Durable, marine tested screens
- ✓ Standard light grey or white cassette profiles
- ✓ Powder-coated options available to match your interior design
- ✓ Cable guides, Sidechannels, level pegs, pulley systems available
- ✓ 67mm or 90mm Cassette Sizes

NON-CASSETTED

Where space is a premium, our non-cassetted screens provide privacy and security without the necessity for a cassette covering.

- ✓ Cost effective
- ✓ Lightweight
- ✓ Perfect for limited space areas
- ✓ Side channels can be used with this product to eliminate light down the sides of the window

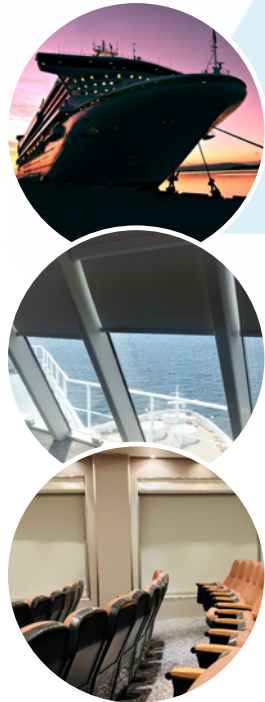

BLACKOUT BLIND OPTIONS

MOTORISED

Integrated into a ship's power supply, our motorised blackout screens are ideal for windows in hard-to-reach areas or cabins, passenger areas and public spaces.

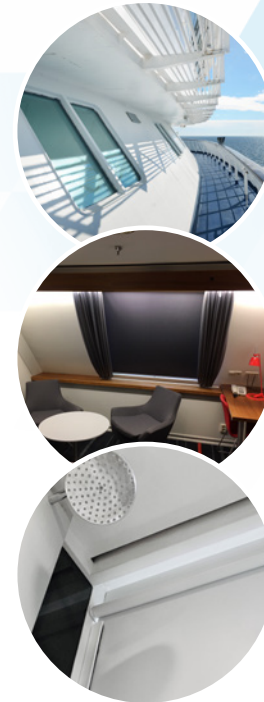

- ✓ Operate individually or all together
- ✓ Low maintenance and quiet operation
- ✓ Ideal for windows that can't be reached manually
- ✓ 90mm Cassette Only
- ✓ Large range of motors and accessories

SOLAR POWERED

Our eco-friendly, solar powered screens reduce onboard power requirements by providing their own solar energy.

- ✓ Operate individually or all together
- ✓ Continue to charge even out of direct sunlight
- ✓ Plug and play solution – no electrician needed
- ✓ Rechargeable battery enclosed inside cassette
- ✓ 90mm Cassette Only
- ✓ Large range of motors and accessories
