MARINE DIMOUT BLINDS

SHADING SOLUTIONS FOR SHIPS, FERRIES AND CRUISELINERS

Whether you're looking to shield passengers from the sun or create a controlled lighting environment on your vessel, Solarglide dimout blinds are a great solution.

Unlike blackout screens they're slightly transparent, allowing some visibility to the outside world and low levels of light transmission indoors too.

They'll also reduce heat and block out dangerous UV radiation – perfect for protecting internal furnishings from fading.

Every dimout blind in our range is made using IMO approved fabrics and comes in a choice of two fabrics.

DIMOUT FABRIC OPTIONS

ROE DIMOUT FABRIC

Our Roe fabric reduces solar glare while allowing natural light to enter your vessel. This fabric is perfect in areas where light and visibility are important, such as waiting areas, receptions, onboard bars, restaurants and lounges.

Roe fabrics are all flame retardant and come in a range of seven neutral colours including beige, light grey and the ever-popular bronze. Made up of 30% polyester and 70% PVC, it conforms to flame retardancy BS5867, Part 2: Type B 2008.

ROE DIMOUT FABRIC COLOURS

CARNIVAL DIMOUT FABRIC

Softer and available in a wider range of 20 colours, our carnival dimout fabric is treated to prevent mould, bacteria and fungi. This fabric is also ideal to help alleviate the symptoms of hay fever by preventing pollens entering the ship in port.

Carnival dimout fabric offers a good level of privacy but still allows lots of light into the interior space. Conforms to flame retardancy BS5867, Part 2: Type B 2008.

CARNIVAL DIMOUT FABRIC COLOURS

LET'S TALK DETAILS...

Solarglide's dimout screens are available in:

- ✓ Cassetted
- ✓ Non-cassetted
- ✓ Manual
- ✓ Motorised
- ✓ Battery operated

Operating mechanisms include:

- ✓ Single pulley
- ✓ Centre pull handle
- ✓ Level pegs
- ✓ Sidewinder
- ✓ Cable guides

Solarglide's dimout blinds prevent soft furnishing from fading, reduce temperatures by up to 15°C in warm climates and are robust and durable for installation on cruise ships and ferries.

The fabrics are all IMO FR approved and come in a range of 27 fabric colour options. Powder coated profiles in white and grey come as standard, but other colours are available on request.

DIMOUT SCREEN OPTIONS

CASSETTED

The most popular option for screens, our retractable cassetted manual roller blind is enclosed in an aluminium case. This makes it robust and durable even in the busiest of vessels.

- ✔ Durable, marine tested screens
- ✔ Standard light grey cassette profiles
- ✔ Powder-coated options available to match your interior design
- ✔ Cable guides, side channels, level pegs, pulley systems available
- ✔ 67mm or 90mm cassette sizes

NON-CASSETTED

Where space is a premium, our non-cassetted screens provide privacy and security without the necessity for a cassette covering.

- ✔ Cost effective
- ✔ Lightweight
- ✔ Perfect for limited space areas
- ✔ Cable guides, side channels, level pegs, pulley systems available

DIMOUT SCREEN OPTIONS

MOTORISED

Integrated into a ship's power supply, our motorised dimout screens are ideal for windows in hard-to-reach areas or cabins, passenger areas and public spaces.

- ✔ Operate individually or all together
- ✔ Low maintenance and quiet operation
- ✔ Ideal for windows that can't be reached manually
- ✔ 90mm Cassette Only
- ✔ Somfy or Ellard motors & Accessories

SOLAR POWERED

Our eco-friendly, solar powered screens reduce onboard power requirements by providing their own solar energy.

- ✔ Operate individually or all together
- ✔ Continue to charge even out of direct sunlight
- ✔ Plug and play solution – no electrician needed
- ✔ Rechargeable battery enclosed inside cassette
- ✔ 90mm Cassette Only
- ✔ Somfy or Ellard motors & Accessories
