

CARNIVAL DIMOUT BLIND RANGE

Blackout Fabric • 20 Colours • FR

Carnival dimout material is a sustainable fabric, made using recycled polyester yarns processed from consumer waste PET plastic bottles. The fabric has been specially treated to prevent mould and pollen from entering the ship, whilst in port or at sea - a valuable asset to hay fever sufferers who experience disruptive sleep.

Carnival fabric allows plenty of sunlight through the material but offers 100% UV protection. Furthermore, it conforms to flame retardancy BS5867, Part 2: Type B 2008.
