DECORATIVE FOLDING BLINDS FOR CRUISELINERS AND FERRIES

ROMAN BLINDS

DECORATIVE FOLDING BLINDS FOR YACHTS

Originally invented by the Romans to shield homes from the dust kicked up by horses and carriages on the Roman roads (we didn't know that either!), our Roman boat blinds are a stylish and functional way to dress your windows on board any ship.

Roman blinds are made up of one flat piece of fabric which gradually folds as the controls are pulled. The opening mechanism allows the fabric to form neat folds, while the fabric lays flat against the window when closed. Devilishly simple and exceptionally stylish.

While we specialise in large, motorised Roman blind systems for cruise ships and ferries, we also cater for smaller, manual projects too.

Solarglide specialise in motorised Roman blinds for cruise ships and ferries, and come in premade formats or can be fully customised to your needs.

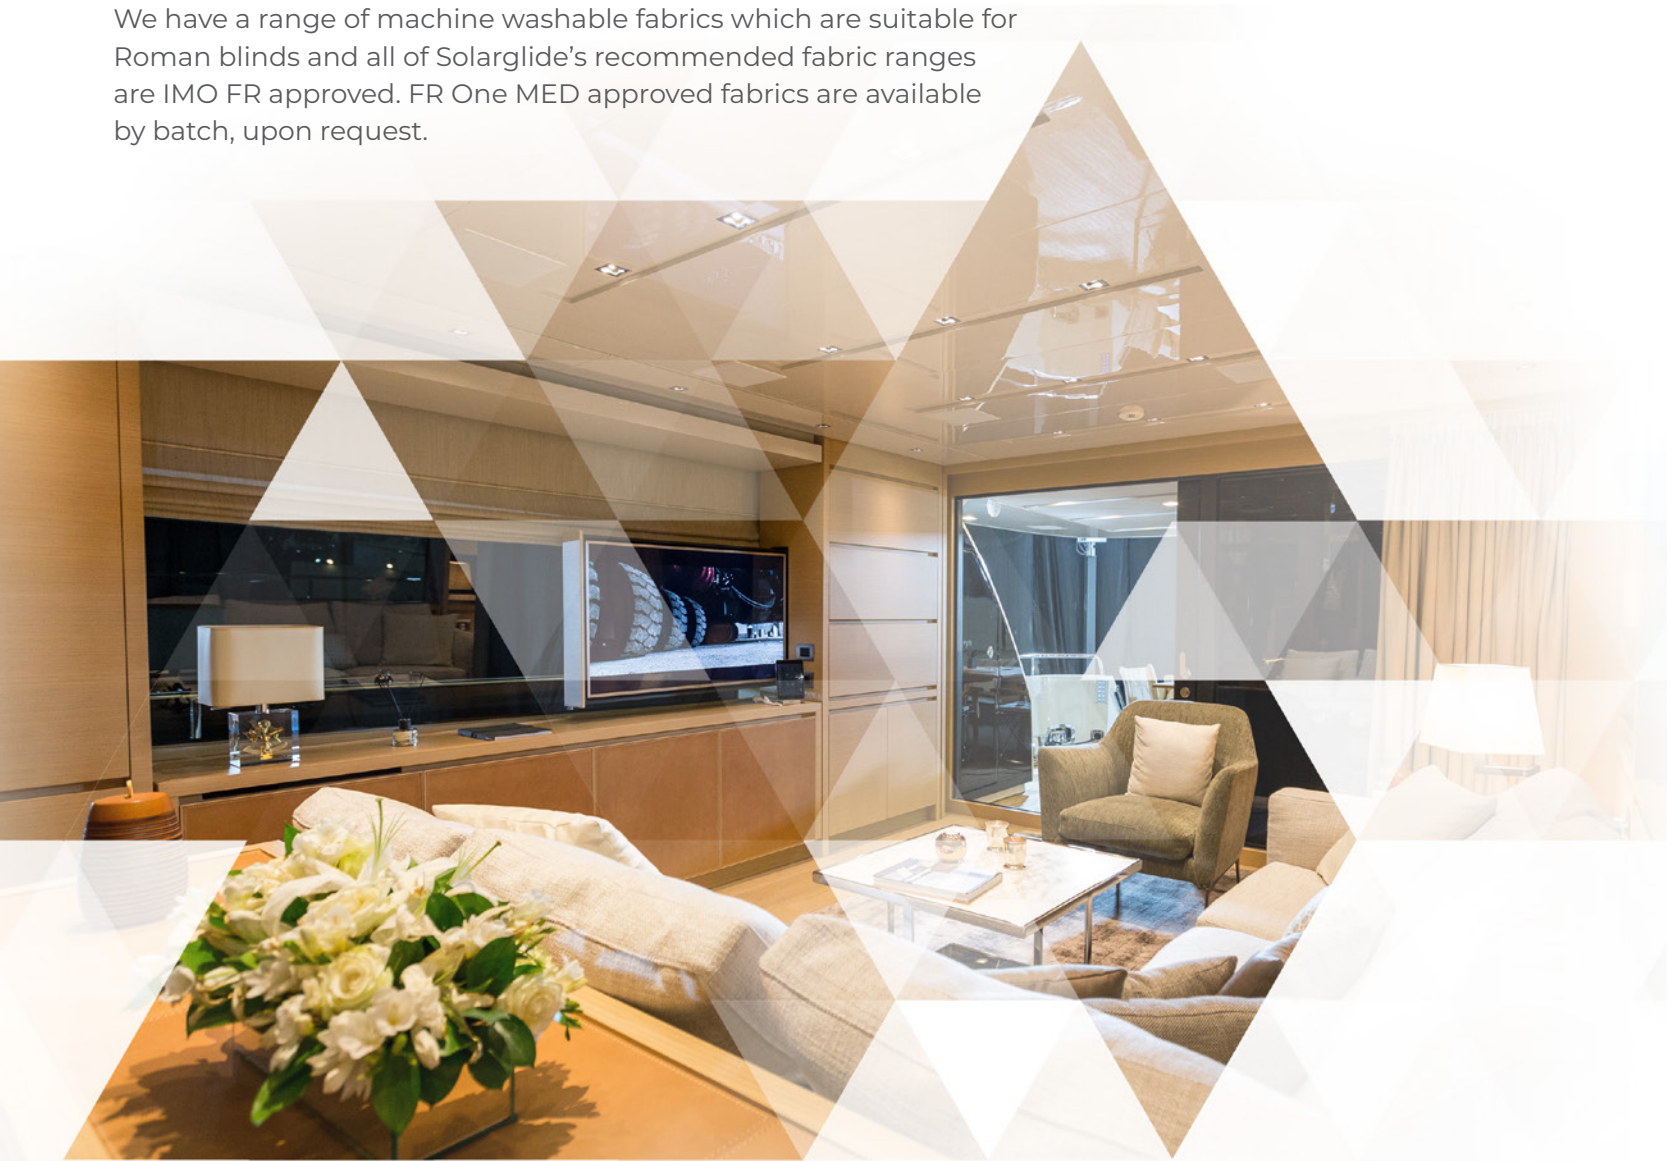

We're proud of our strong relationships with UK and international fabric manufacturers and suppliers and our Roman blinds can be found on boats, cruise liners and yachts all over the world.

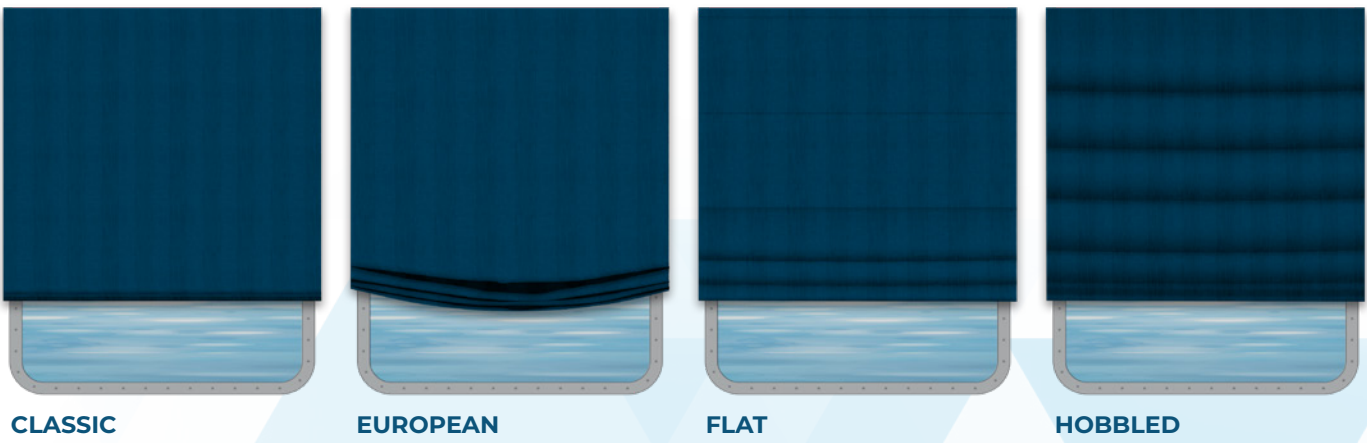

ROMAN BLIND OPTIONS AND DETAILS

Every one of our stylish Roman blinds are handmade in the UK by our talented team of expert tailors. They're all child-safe and are delivered to you as complete units, ready to hand. This means they arrive with rails and fixings.

We have a range of machine washable fabrics which are suitable for Roman blinds and all of Solarglide's recommended fabric ranges are IMO FR approved. FR One MED approved fabrics are available by batch, upon request.

CHOOSING THE PERFECT ROMAN BLIND FABRIC FOR YOUR BOAT INTERIOR

It's crucial, when choosing fabrics for Roman blinds, that the fabric isn't too soft.

Soft, flowing fabric doesn't fold well and can look untidy on the window.

But don't worry, we have a wide range of suitable fabrics to help you make your choice (if the fabric hasn't been specified by an interior design or isn't part of the newbuild specification).

Some of our favourite fabrics for Roman blinds are Amante, Astaire, Raku and Santon.

NEED MORE DETAILS?

- ↕ Guide wire systems available on request
- ⚙ Solarglide's Roman blinds can be manual or motorised
- 📶 Where motorised, our blinds can be hard wired, remote controlled, synchronised or individually operated – all feature quiet operation
- 🌙 Blackout linings are recommended
- 🔧 Strengthening rods are sewn into the fabric for additional stability
- 🏆 All Roman blinds come with a three-year warranty as standard

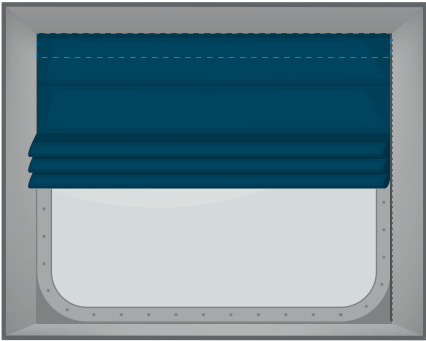

Solarglide Roman blinds are pre manufactured to the exact size of your window, making them easy to install and set up when they arrive onboard

They come with an upper cassette, sidewinder mechanism, brackets and fixtures, child safety catches and folded fabric (they should be ready to hang)

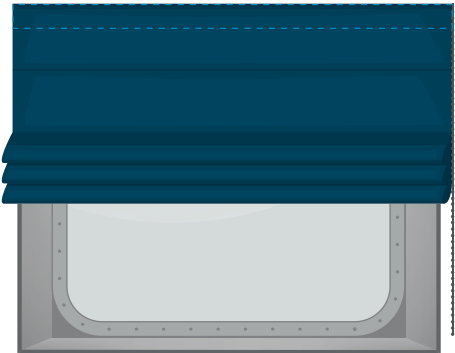

The Roman blind will arrive as a complete unit with the fabric velcroed to the upper cassette

Installation can either be within the window recess / or on the outside of the window recess

INSIDE RECESS NORMALLY TOP FIX

OUTSIDE RECESS NORMALLY FACE FIX
