LEATHER WRAPPED BLINDS FOR YACHT & CRUISELINER WINDOWS

FAUX LEATHER VENETIAN BLINDS

LEATHER WRAPPED BLINDS FOR YACHT & CRUISELINER WINDOWS

Solarglide's faux leather venetian blinds are the ultimate luxury window shading for yachts and cruise interiors.

Hand wrapped venetian blinds create onboard privacy whilst allowing lots of light into the interior space. The user can either tilt the slats to alter the light transmission percentage, or draw the blinds upwards for stunning, full panoramic views.

Handcrafted, stitched and wrapped by our talented production team, the faux leather venetian slats are much sturdier than your typical blinds, offering the highest levels of quality and sophistication for crew and passengers. A wipe clean product which is moisture resistant and marine resilient meaning a long life with low maintenance.

Choose from 35mm or 50mm slat widths and a large selection of 40 stunning colours to match existing or newly proposed interiors. Brackets and fixtures are included, along with a faux leather wrapped bottom rail, cable guide support for stability at sea and a colour matched cassette.

Solarglide's faux leather venetian blinds are the perfect chic addition to your master cabins, top-end rooms and suites and public spaces.

CRUISE SHIP AND FERRIES

Faux leather venetian blinds are a popular shading solution for ferry and cruise ship windows. As an alternative to roller blinds and curtains, these sophisticated horizontal blinds add a touch of luxury to onboard cabins, public spaces, and master suites. They are functional, visually stunning, robust, and easy to maintain and clean.

YACHTS AND SUPERYACHTS

Solarglide bespoke hand wrapped faux leather venetian blinds for yachts and superyachts offer the ultimate luxury for owners, crew, and passengers. Choose from a selection of colour matched plain fabrics, paired with matching cassettes and high-quality brushed chrome fixtures. Faux leather venetian blinds create a superior yacht interior.
